to handle confidential matter. Such action, following a careful records check, was required in connection with OSWALD's assignment to the Aviation Fundamental School, Naval Air Technical Training Center and the Aircraft Control and Warning Operations Course at Keesler Air Force Base. As far as can be determined at this time, OSWALD while a student at the aforementioned commands during courses of instruction relating to Radar Jamming and Identification - "Friend or Foe" procedures. Because of his grade and lack of experience, he would not normally have had access to classified matter in the performance of his duties as an Aviation Electronics Operator following completion of his training heretofore described. There is no evidence contained in the personnel file that OSWALD's security clearance was ever terminated, nor is there evidence that he was granted access to any information of higher than confidential characterization. It was, however, the practice of the Marine Corps, that on occasions where assignments, similar to OSWALD's, required a higher clearance than confidential in order to perform specific, classified electronic duties, personnel with clearances commensurate with the duties to be performed were assigned thereto.

COMMISSION EXHIBIT No. 1961-Continued

Date June 25, 1964

ELIAN R. FELDE, 3307 North 22nd Street, advised that he
had enlisted in the United States Marine Corps at Milwaukee,
Wisconsin in October, 1956 and had met and married OSWALD
as a United States Marine Corps recruit about October 1956,
while both of them were assigned to Platoon 2000,
2nd Battalion, M.C.R.D., San Diego, California. Both men
were stationed at San Diego until January, 1957, at which
time FELDE stated that they were transferred to Camp
Pendleton for combat training. This combat training lasted
until May, 1957 and during this time FELDE was assigned to
the same squad of eight men, all of whom shared the same
tent. During May, 1957, OSWALD and FELDE were transferred
to the A & P School at Jacksonville, Florida and in approximately
July, 1957 they were both sent to Aviation Electronics School
in Memphis, Tennessee. During September, 1957 FELDE transferred
to the Marine Corps Air Station at Opa Locka, Florida and did
not see OSWALD after this date.

During his association with OSWALD, FELDE recalled that
OSWALD continually discussed politics in which topic
none of the young Marines had any interest. OSWALD was an
argumentative type of person and would frequently take the
opposite side of an argument just for the sake of a debate.
OSWALD was not popular with the other recruits, and his
company was avoided if possible.

According to FELDE, OSWALD continually wrote to United
States Senators about certain issues in which OSWALD
believed strongly but which were not known to FELDE.
One senator in particular who was in receipt of a number
of OSWALD's letters was Senator KENNEDY. FELDE remembered
that OSWALD had expressed a dislike for people of wealth
and that he championed the cause of the working man.
On frequent occasions OSWALD found fault with KENNEDY
and TRUMAN and had been against the United States participation
in the Korean War since OSWALD stated that one million men
were killed in this war and nothing was accomplished. OSWALD
had condemned KENNEDY because of KENNEDY's poor tactics
in the utilization of a tank unit at the time of the invasion
of Europe. FELDE had the impression at the time of his
